# Construction, Builders' and Mechanics' Liens In Canada 7th Edition

This publication offers an exhaustive analysis of the construction, builders' and mechanics' lien legislation from all Canadian jurisdictions; legislative concordances, guidance on construction lien practice; a comprehensive set of construction law forms and precedents; and summaries and analysis of every significant case in the construction lien area decided in trial and appeal courts throughout Canada.

This release updates the text of Chapter 10, Jurisdiction, to reflect the coming into force of the Ontario *Construction Act*. The new Act repealed most sections governing jurisdiction and procedure, replacing them with a number of Regulations. The Ontario reference rules now provide for a reference to a judge of the Small Claims Court where the action is for an amount within the monetary jurisdiction of that court. Provided in this release as well are the forms under the new Act and text of the Ontario *Construction Act*.
